Mr. James W. Smith
Reclamation Soils Specialist
Division of Oil, Gas & Mining
Department of Natural Resources
1588 West North Temple
Salt Lake City, Utah 84116

Dear Mr. Smith,

RE: South Lisbon Mine, San Juan County
Act /037/018

Enclosed is a copy of the revised map of the mining operation showing the location of the access and haul roads as per your request of February 8, 1978.

Your concern about the pit walls on the mined-out SL-1 pit have been answered in our attachment to MR Form 2 which was originally submitted as per request of Mr. Buck's letter of September 15, 1977 which we sent October 14, 1977. This attachment is the same as was submitted on January 31, 1978 and is found in items 11 (a) Open Pit, 11 (g), and paragraph two of the Grading and Regrading section. If this is insufficient, or you wish it to be in a different format, please let me know and we will comply to the best of our ability.

Your recent letter of March 1, 1978 on the confidentiality section is clarified to be only for that material related to the location, size and nature of deposit.

Sincerely yours,

Eric Newman
President
